Clinical Science Day

Microenvironment, migration, proliferation and apoptosis in CLL

Tuesday 29th April 2008

RIBA, 66 Portland Place, London W1B 1AD

Gold sponsors:

Silver sponsors:

Bronze sponsor:

Supporter:

Protherics

10.00 Registration & Coffee

10.30 Chairman's Introduction

Andy Pettitt

Session 1 – Proliferation, trafficking and microenvironmental interactions

Chair: Chris Fegan

10.35 Proliferation in CLL

Nicholas Chiorazzi
New York, USA

11.20 CLL - who are the collaborators?

Andrea Buggins
King's College, London

11.50 The $\alpha\text{L}\beta\text{2}$ defect of CLL cells

Kathy Till
Liverpool

12.20 CD38 in CLL

Silvia Deaglio
Turin, Italy

13.05 Lunch

Session 2 – Novel therapeutic approaches

Chair: Claire Dearden

14.00 Presentation of the Annual Hamblin prize

Terry Hamblin
Bournemouth

14.10 The leukaemic microenvironment as a target for therapy in CLL

Stephen Devereux
King's College, London

14.40 Targeting NF- κB as a therapeutic strategy in CLL

Saman Hewamana
Cardiff

15.10 Coffee

Session 3 – Updates

Chair: Estella Matutes

15.40 UKCLL Website update

Stephen Devereux
King's College, London

15.50 UKCLL Clinical Trials update

Peter Hillmen
Leeds

16.10 Local CLL Biobanking
UK CLL Trials Biobank

Aneela Majid
Andy Pettitt

16.30 Close
